Contents of Volume 115 1989

Volume 115, Number 1

H.D. Brooke, D.R. Coventry, T.G. Reeves and D.K. Jarvis, Liming and deep ripping responses for a range of field crops 1

R. Lalande, N. Bissonnette, D. Coutlée and H. Antoun, Identification of rhizobacteria from maize and determination of their plant-growth promoting potential 7

B.R. Dalton, Physicochemical and biological processes affecting the recovery of exogenously applied ferulic acid from tropical forest soils 13

N.I. Mitreva, Physiological interaction model of sunflower plant with its nutrient medium during ontogenesis. I. The system of uptake and distribution of all essential elements by the above-ground parts 23

N.I. Mitreva, Physiological interaction model of sunflower plant with its nutrient medium during ontogenesis. II. Mechanisms of nutrient ion absorption and transport 29

H. Kirchmann and E. Witter, Ammonia volatilization during aerobic and anaerobic manure decomposition 35

E. Witter and H. Kirchmann, Peat, zeolite and basalt as adsorbents of ammoniacal nitrogen during manure decomposition 43

E. Witter and H. Kirchmann, Effects of addition of calcium and magnesium salts on ammonia volatilization during manure decomposition 53

R.C. Ellis and P.I. Pennington, Nitrification in soils of secondary vegetational successions from Eucalyptus forest and grassland to cool temperate rainforest in Tasmania 59

P.A.A. Pereira and F.A. Bliss, Selection of common bean (*Phaseolus vulgaris* L.) for N_2 fixation at different levels of available phosphorus under field and environmentally-controlled conditions 75

S.S. Bains and H.S. Dhaliwal, Release of secondary sporidia of *Neovossia indica* from inoculated wheat spikes 83

L. Madi and Y. Henis, Aggregation in *Azospirillum brasilense* Cd: Conditions and factors involved in cell-to-cell adhesion 89

D.A. Jasper, L.K. Abbott and A.D. Robson, Acacias respond to additions of phosphorus and to inoculation with VA mycorrhizal fungi in soils stockpiled during mineral sand mining 99

D.L. Richter, T.R. Zuellig, S.T. Bagley and J.N. Bruhn, Effects of red pine (*Pinus Resinosa* Ait.) mycorrhizoplane-associated actinomycetes on *in vitro* growth of ectomycorrhizal fungi 109

M.F. Jurgensen, M.J. Larsen, M. Wolosiewicz and A.E. Harvey, A comparison of dinitrogen fixation rates in wood litter decayed by white-rot and brown-rot fungi 117

CH. Morel and J.C. Fardeau, Native soil and fresh fertilizer phosphorus uptake as affected by rate of application and P fertilizers 123

R. Habib and J. Chadoeuf, Errors in estimating total root length by sub-samples method 129

S.R. Smith and P. Hadley, A comparison of organic and inorganic nitrogen fertilizers: Their nitrate-N and ammonium-N release characteristics and effects on the growth response of lettuce (*Lactuca sativa* L. cv. Fortune) 135

Short communications

E. Vardavakis, Seasonal fluctuations of aerobic cellulolytic bacteria, and cellulase and respiratory activities in a soil profile under a forest 145
I. Cacciari, D. Lippi, T. Pietrosanti and W. Pietrosanti, Phytohormone-like substances produced by single and mixed diazotrophic cultures of Axospirillum and Arthrobacter 151

Volume 115, Number 2

Selected papers from the Proceedings of an International Symposium on
ECOLOGY ON ARABLE LAND – PERSPECTIVES AND CHALLENGES
Swedish University of Agricultural Science, Uppsala, 9–12 June 1987
Edited by M. Clarholm and L. Bergström

S.P. Long, E. Garcia Moya, S.K. Imbamba, A. Kamnalrut, M.T.F. Piedade, J.M.O. Scurlock, Y.K. Shen and D.O. Hall, Primary productivity of natural grass ecosystems of the tropics: A reappraisal 155
F.R. Warembourg and C. Roumet, Why and how to estimate the cost of symbiotic N_2 fixation? A progressive approach based on the use of ^{14}C and ^{15}N isotopes 167
J.A. van Veen, R. Merckx and S.C. van de Geijn, Plant- and soil related controls of the flow of carbon from roots through the soil microbial biomass 179
J.M. Melillo, J.D. Aber, A.E. Linkins, A. Ricca, B. Fry and K.J. Nadelhoffer, Carbon and nitrogen dynamics along the decay continuum: Plant litter to soil organic matter 189
J.W.B. Stewart and C.V. Cole, Influences of elemental interactions and pedogenic processes in organic matter dynamics 199
E.I. Newman and W.R. Eason, Cycling of nutrients from dying roots to living plants, including the role of mycorrhizas 211
J.W. Woldendorp and H.J. Laanbroek, Activity of nitrifiers in relation to nitrogen nutrition of plants in natural ecosystems 217
P.M. Vitousek, P.A. Matson and K. van Cleve, Nitrogen availability and nitrification during succession: Primary, secondary, and old-field seres 229
T. Persson, Role of soil animals in C and N mineralisation 241
H.W. Hunt, E.T. Elliott and D.E. Walter, Inferring trophic transfers from pulse-dynamics in detrital food webs 247
J.M. Tiedje, S. Simkins and P.M. Groffman, Perspectives on measurement of denitrification in the field including recommended protocols for acetylene based methods 261
D.R. Nielsen and M.H. Alemi, Statistical opportunities for analyzing spatial and temporal heterogeneity of field soils 285
P. Newbould, The use of nitrogen fertiliser in agriculture: Where do we go practically and ecologically? 297
